OIC Srl is a MedTech Trusted Partner

Dear friends and colleagues, Hip surgery, conservative and above all, arthroplasty, remain the most profitable area in terms of indications, clinical results, scientific research and economic investment.

Starting from Europe and the USA, there is a big effort in order to promote the shortest hospital stay for the patients, while maintaining a high-quality standard. The peri-operative organization for a one-day surgery requires a great collaboration of different disciplines. Different countries look at this new wave in singular ways and the state-of-the-art of indications, surgical and anesthesiologic and rehabilitation technique should be subject to international comparison.

Conservative surgery is living a new life, in terms of hip preservation. Again, different attitudes and needs can be encountered in different countries, deserving more uniform critical considerations.

Infections are nowadays living an overall mega-battle and must be considered again as the main cause of failure despite the improvement of surgical techniques and materials.

The introduction of new prosthetic devices, and backyard engineering, should also be considered in a uniform way in different parts of the world.

Revision hip surgery should aim at defining the best optional pathways in terms of indication and treatment, according to the economic impact they may have in different countries.

All the Scientific bodies promoting these meeting represent a part of the world where the Society asks for better care with a less economic burden and reunites distinguished surgeons with huge surgical experience and international fame.

PRESIDENTS

PROF. **FRANCESCO BENAZZO**

DR. **PIETRO CAVALIERE**

MAIN TOPICS

- CONSERVATIVE HIP SURGERY
- REVISION HIP SURGERY
- ROBOTIC HIP SURGERY
- ANCILLARY TECHNOLOGY
- PERI OPERATIVE STRATEGY
- ENGINEERING, NEW IMPLANTS, AND CERTIFICATION
- HIP REPLACEMENT IN BONE DISEASES
- CONFLICT OF INTERESTS AND ETHICAL BEHAVIOR

Congress papers will be selected among the abstracts that will be received; papers on the topic will be assigned only if abstracts lack quality/quantity

21 OCTOBER 2021

14.30 Oral communications on Congress topics
16.00

16.30 **AISOT SESSION WITH AUOT**
18.30

16.30 Lecture: Arthroscopy and prosthesis: hip preserving surgery

16.45 AISOT oral presentations on “hip preserving surgery”

17.30 Lecture: Cemented hip: expertise that should be kept in time

17.45 AISOT oral presentations on “cemented hip”
18.30

18.30 Discussion AUOT and AISOT: demand and supply for specialized
19.30 tutoring: current and future needs

22 OCTOBER 2021

- 07.45 Two instructional courses
08.30 (Robotic hip surgery: inevitable fate?; Surgery solutions in acetabular revisions)
- 08.30 SIDA-AIR oral presentations, plenary session
10.00
- 10.30 SIDA-AIR oral presentations, plenary session
12.00
- 12.00 SIDA General Assembly
13.00
- 13.00 Reserved slot to sponsoring companies
14.00
- 14.00 SIDA-AIR oral presentations, plenary session
15.30
- 16.00 Remote session with Sociedade Brasileira do Quadril and Mexican Hip Society
18.00

23 OCTOBER 2021

- 07.45 Two instructional courses (Ethics in hip replacement surgery;
08.30 Surgery solutions in femoral revisions)
- 08.30 SIDA-AIR oral presentations, plenary session
10.00
- 10.30 Remote session with Egyptian Pelvis and Hip Society
12.00

Speakers and Moderators

- AUOT Executive Committee members
- SIDA Executive Committee members
- AIR Executive Committee members
- Foreign Societies Executive Committee members
